SUMMARY

Computer Science student (May 2027) coordinating 15+ real estate client projects across technical, 3D rendering, and sales teams — running Agile/Scrum in Jira and Trello with scoped, risk-tracked delivery.

EDUCATION

Bennett University

Bachelor of Technology (B.Tech), Computer Science

Greater Noida, India

Expected May 2027

EXPERIENCE

Project Management Intern

May 2026 – Present

Convrse Spaces

Gurugram, India

- Coordinated delivery of 15+ real estate client projects, aligning a 7-8-member technical team with 3D rendering and sales teams on ownership, timelines, and risks.
- Served as project point of contact for client requirements, deliverable reviews, and stakeholder feedback through delivery.
- Ran **Agile/Scrum** tracking in **Jira** and **Trello** — sprint planning, standups, and backlog grooming — keeping status, owners, and risks visible.
- Proposed an AWS EC2 + ADB/scrcpy remote-diagnostics proof of concept for Convrse Device Manager, cutting troubleshooting from a full day to minutes.
- Validated Convrse Connect functionality, documented deployment-readiness findings, and defined happy-path workflows.

Data Analyst Intern

Jan. 2026 – May 2026

UpRevol Technologies

Jaipur, India

- Cleaned and standardized marketing and web-traffic datasets with Python (Pandas/NumPy) and SQL for a client marketing dashboard.
- Analyzed session durations, conversion rates, and engagement trends to surface top-performing campaigns for budget decisions.
- Delivered dashboards and reports, flagged tracking errors corrupting data capture, and defined data-tracking requirements.

PROJECTS

ProdIntel AI | [GitHub](#) | *Python, FastAPI, ChromaDB, Streamlit*

May 2026 – Present

- Defined scope and built a four-stage decision-support platform converting stakeholder feedback into ranked, evidence-traceable recommendations.
- Delivered a three-mode Streamlit demo with multi-format feedback intake and source-level decision provenance, validated with 569 deterministic tests.

BenNest | [Live prototype](#) | *Next.js, TypeScript, Product Discovery*

Jun. 2026 – Present

- Conducted cold outreach to 45+ property owners via calls and listing-platform messages to test supply-side assumptions for a zero-brokerage campus marketplace.
- Defined requirements, backlog priorities, and end-to-end workflows; deployed a Next.js prototype covering enquiries, moderation, messaging, and support.
- Ran internal functional QA across student, lister, and administrator journeys ahead of external user testing.

SKILLS

Project Management: Agile (Scrum, Kanban), Sprint Planning, Requirements Gathering, Stakeholder Coordination, Risk and Change Management, Backlog Management, Documentation and Reporting

Tools: Jira, Trello, Notion, Google Workspace, AWS EC2, ADB, scrcpy, Python, SQL, FastAPI, Git

Strengths: Cross-Functional Teamwork, Structured Problem Solving, Data Analysis, Process Improvement, Presentations

CERTIFICATIONS

IBM Product Manager Professional Certificate — product strategy, roadmapping, agile delivery.

AWS Certified Solutions Architect – Associate — cloud architecture and cost optimization.
